total transactions were considerably above yesterday's business the gain was, in great part, confined to a few issues, as in Sugar Refining, Burlington, St. Paul and Metropolitan Street Railway. These stocks, with Manhattan, Brooklyn Rapid Transit and Reading issues, furnished one-half of the total dealings. Trading sentiment, however, was better, and commission houses had a few orders for execution, the buying by the last-named element being, perhaps, per cent for sixty days, 3% per cent for three unusually good for a holiday market. The money market furnished encouragement to money market furnished encouragement to traders because offerings were freely made by trust companies at 3 per cent, and the same rate by the banks after some efforts to mark the rate up to 3½ per cent, while further weakness in the foreign exchange market and the announcement that \$500,000 gold had been engaged for imports created confidence in circles where recently it was thought that money rates would be stringent. Money will not be stringent; but it will be several weeks, according to the best-informed bankers, before rates work back to the figures which ruled during the fall.

Well-informed bankers do not expect a general gold movement this way, despite to-day's engagement, and the fact that imports may be made without loss. If gold is needed it will be imported, and the very fact that this country can import the metal whenever it chooses re-

made without loss. If gold is needed it will be imported, and the very fact that this country can import the metal whenever it chooses relieves the monetary situation of all terror, and inspires confidence in the strength and power of the United States as a financial centre. Today's weekly bank statement showed a loss in surplus reserve of \$4.202,600. This loss will be offset by payments on account of the currency 6s, which are now being redeemed. The United States Treasurer mailed checks to-day, aggregating \$11.732.820, in redemption of these bonds, \$10.490,533 of which was drawn on the New-York Sub-Treasury. As long as rampant stock speculation is not under way, the money market will take care of itself, at the rates now prevailing, with the possibility of temporary higher fluctuations. Speculative interest was again centred in the local transit lines, extreme advances being made of 1½ per cent by Manhattan, 2% per cent by Metropolitan Street Railway, 1% by Brooklyn Rapid Transit, and 5 per cent by Third Avenue. Sugar Refining was active at a net gain of 1% per cent, Jersey Central, the Granger shares, Louisville and Nashville, American Tobacco and Western Union were strong features. In the afternoon there were reactions throughout the list, but the majority of stocks gave net gains at the close. Total sales of stocks were 274,278 shares, against 206,578 yesterday.

Prices for the sales of the principal active stocks to-day, compared with the final figures of yesterday, were as follows:
